

Cafe

make yourself some Dirt Pudding

- 1 Make the pudding according to the directions on the box.
- 2 Put the pudding in bowls. Or, use foil to cover the hole in the bottom of a clean, plastic flower pot and pour the pudding in.
- 3 Crush the cookies into small bits (the back of a spoon works for this). Sprinkle onto your pudding. Top it with fake flowers and gummy worms for the full effect.

Have fun with your food! Try making a butterfly out of celery, cream cheese, and mini pretzels. Spread the cream cheese on the celery and add two pretzels for the wings. What other fun snacks can you build with food?

What You Need

- chocolate pudding
- chocolate wafer cookies
- bowl, cup or clean, plastic flower pot
- foil (if you use a flower pot)
 - gummy worms (optional)
 - plastic flower (optional)
