GET-MOVING GAME

Being active helps people stay healthy and fit.

But a lot of people don’t get enough exercise, which is a BIG problem.

All right, I want you to INVENT an indoor game that gets people moving.

Let’s review the specs. Besides getting you moving, the game should be fun and not too complicated.

MATERIALS

Take a look at your materials. What can you use to make a game?

- cardboard
- Ping-Pong balls
- small aluminum baking pans
- paint stirrers
- plastic bags
- duct tape
- string
- rubber bands
- plastic spoons
- tennis balls
- scissors & paper

BRING IT ON!

pbs.org/designsquad
The Divine Child High School InvenTeam invented a way for people to recharge up to three electronic devices, such as cell phones and MP3 players, while riding a bike. Check out this project and others at web.mit.edu/inventeams.
